Usage:

The antenna is supplied together with a massive holder that allows easy mounting on a mast. Holder can be installed separately on the mast. Subsequently, the antenna with microwave unit can be simply hung up into it.

Antenna holder allows fine setting elevation $\pm 15^\circ$ and azimuth $\pm 7^\circ$. Ready for right and left side mounting.

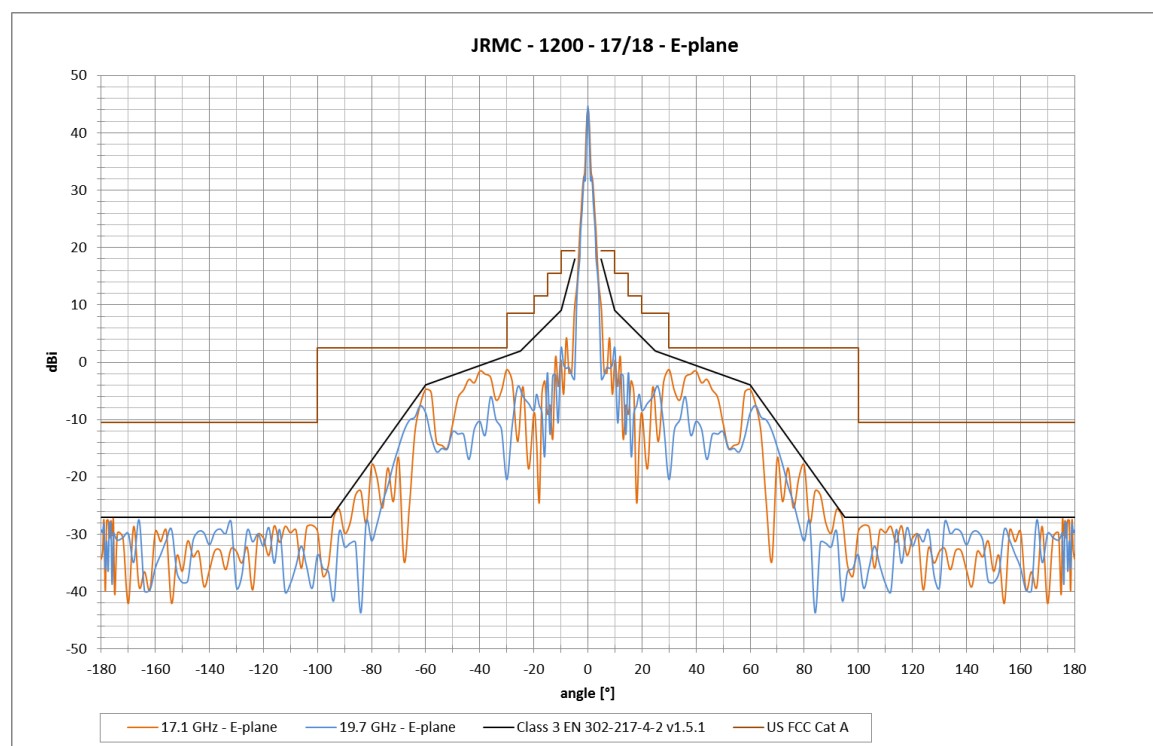

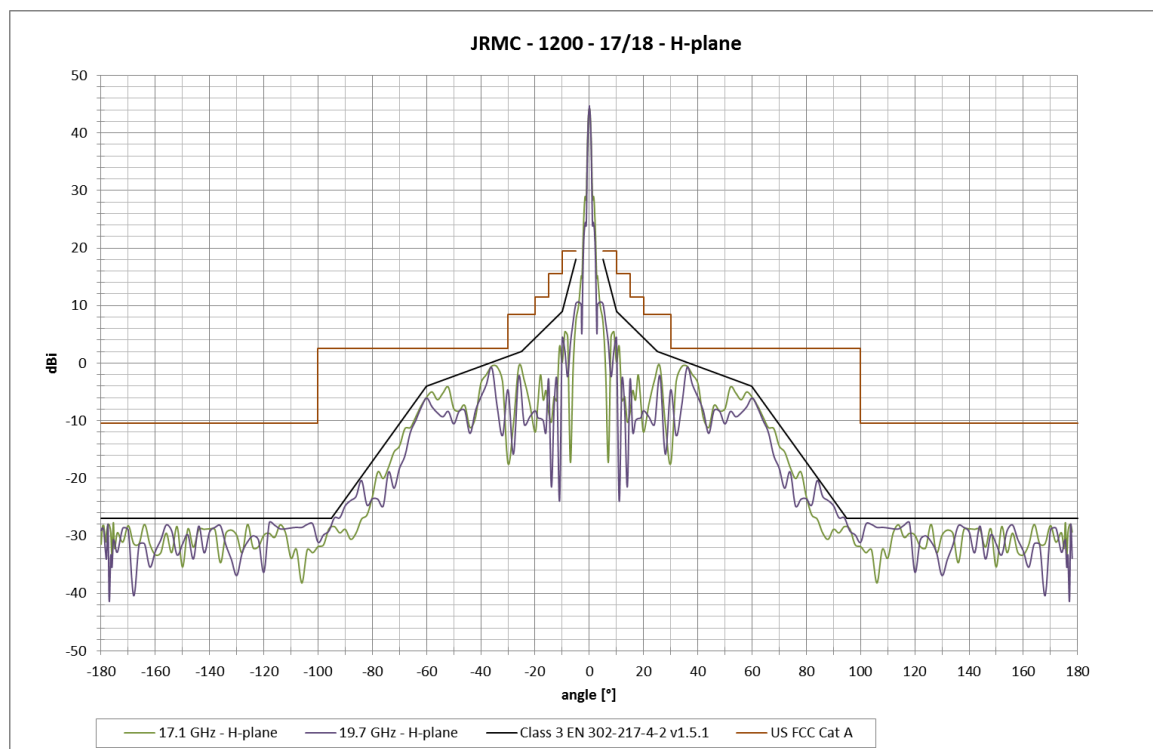

In the areas with the expected occurrence of the strong winds the usage of the (adjustable) wind bracing set is recommended. For mounting on the **mast \varnothing 60 – 80 mm** the usage of the **(adjustable) wind bracing set** is strongly recommended.

The usage of adjustable wind bracing set allows to set azimuth more comfortably.

The **wind bracing set** or the **adjustable wind bracing set** are optional accessories.
